## Anthem of Peace.

Father enthroned on High!  
Humbly Thy children cry:  
Send Peace on Earth!  
Send Peace, Prosperity  
Fill earth from sea to sea.  
May mankind bend the knee  
In fear of Thee!  
May Earth no more rehearse  
War's songs of crime and curse,  
O make war cease!  
Death-tube and shrieking shell  
Sound for brave men the knell,  
Widows the chorus wail—  
"God Send us Peace!"  
May mankind's psalm of life  
Be Peace instead of Strife,  
Filling all earth!  
Look down from Heaven and bless  
Earth with Thy righteousness,  
Then reign of Happiness  
Shall have its birth!  
(Words by Rev. H. Perera Mendez, and sung to the air of "America.")

Another effort is being made to revive the Bible School at Rose-dale. Last Sunday, a service was held, which though small in attend-ance, was full of promise. This will be a union effort. All denom-inations of the vicinity are urged to co-operate and make this effort a success. The meetings will con-vene every Sunday afternoon, at 3 o'clock.

As he was approaching the school house, Wednesday morning, Alton DePay received an acorn on the right lens of his glasses, breaking it to bits, and driving particles into the eye. Not until next day could they discover the extent of the in-jury, on account of inflammation. Aside from several scratches on the eye-ball, there was probably nothing serious. Several boys had been having an acorn fight, and Alton happened to come along just at that inopportune time.

Local firemen will be accompanied by a score or more automobiles, Hammon-ton Band, and the ladder truck, on its trip to Haddonfield next Saturday. They will start at near twelve o'clock as possible—at twelve-thirty at the latest—and reach their destination in time to line up in the two o'clock parade. It is said that twenty-two fire com-panies have accepted the invitation, and will put fifteen hundred men in line.

The County C. N. Union will hold its first Fall rally in the First Baptist Church, Egg Harbor, on Tuesday eve, 20th. Rev. W. L. Shaw will make the address, and Mrs. A. Brownlee, District Sec'y, will report on the recent State Con-vention, which was one of the most interesting and helpful ever held. A cordial invitation is extended to Christian workers of the Churches to combine and arrange to go down in wagons. A good, helpful time promised to all who attend. M.

**This Store** is better prepared than ever before to supply your wants  
Big stocks in every department to choose from.

Quality is kept up to the highest standard. Prices are kept down to the lowest possible point. Close observation will convince you that "buying at home" can be done to better advantage. This store gains the confidence of hundreds of new customers every season. Surely there's a reason.

Your clothes are likely to encounter a stiff campaign of wear. You want the kind that will stand up under the strain, keep shape, and wear well. We are prepared to fit you with just that kind of cloth, that will stand attacks of the weather and wear.

Suits for Men and Young Men at \$10, \$12.50 and \$15. If we were to tell you in detail all the time and labor necessary to crowd all the value we did in these suits, and still be able to offer them at these prices, you would hardly think it possible.

To make it short, we will say that we stand back of every garment against fading; we guarantee them to hold their shape; they are tailored in the best manner, of cassimeres, worsteds and serges, in tartan plaids, stripes, neat mixed goods; made in two and three button style, English style and conservative models.

Suits for stout men, tall men and short men. We carry in stock just such models, that were made for out of the ordinary size man, at \$12.50, \$15, and \$18

With such a splendid collection of Hart Schaffner and Marx clothes, it is really extravagance to go to a tailor and pay five to ten dollars more to have your clothes made to order.

Come in and see what we can do for you at a cost of \$18, \$20, and \$22.50

You may think you are hard to fit, but really there are a very few men who can't be fitted with the suits Hart Schaffner & Marx made for us. You ought to see the new weaves and models.

Glad to show them to you any day you call.

The new Balmacaan Over-coats are now in.

Rain Coats and Mackinaws in abundant supply.

Everything ready.

Heavy Cape Gloves at \$1, \$1.25 and \$1.50

## Nemo Corsets.

The introduction of Lasti-cop for improvement in corset construction has resulted in reducing to a science what was formerly simply the ster-eotyped manufacture of cor-sets.

Kopservice means to corsets what hygiene means to daily habit. It makes possible the combination of comfort, dura-bility and economy. It will strengthen without binding, it confines without hampering freedom of motion.

We call special attention to Nos. 315 and 327, at \$3.00,— They are designed to support the abdomen, and an outer section of Lasticop produces the effect of reducing super-fluous flesh.

Nemo Corsets, \$2, \$3, \$4, and \$5.

American Lady Corsets, \$1, \$1.50, \$2, \$2.50, \$3.

## Art Needlework.

Separate stamped pieces in great variety; also Royal So-ciety packages.

We carry in stock all colors of silks for embroidering.

Royal Society packages contain all necessary silk.

## Girls' Dresses at 48 c.

Size 6 to 12 years; of good washable material.

Girls' Dresses at \$1 and \$1.50; richly trimmed, made in the new style, of good washable material.

## Children's Underwear.

A complete line of cotton, merino and woolen,— cream color and white.

## Boys' Shoes.

95 cents to \$2.50,—in all grades, in between prices.

PULPIT TOPICS

THE LOVING KINDNESS OF THE LORD

Christ was beginning his second year of service. A festival of the Jews was being held in Jerusalem and Jesus went up to the city for the purpose of taking part in the celebration.

At this particular time He did more than attend upon the festival services. He strode about the city and apparently went in search of something to do.

He strode about the city and apparently went in search of something to do. He was ever about His Father's business, never idle or loitering.

Presently He reached a place where a number of people were gathered about a spring whose waters were said to possess healing qualities.

Was it perchance simply an accident that Jesus went to the spring? He did not seem to be there for any other purpose.

And He goes the same way today. The crowd is so dense that people who are suffering both spiritual and physical ills find an alarming degree.

**SATURDAY, OCTOBER 17, 1914**

For Member of Congress.—Isaac Bacharach.

For Assemblymen.—Carlton Godfrey, Bertram Whitman.

For Sheriff.—Joseph R. Bartlett.

For Coroners.—Dr. Chas. Cunningham, Dr. Richard Bew.

Town Council.—R. H. Sharpe, Henry Nicolai, Howard M. Holland.

Town Council is up against a proposition which will invite criticism

whichever way they decide,—the matter of Hotel Royal license. The

intent of the ordinance was that all licenses should be granted at the

same time (but does not say so), and all to expire May 15th. Solicitor

Stockwell will clear it up; but to those of us who have carefully read the

ordinance there seems to be but one thing to do,—to grant the

license,—though we and two members of Council would vote "No," as

a matter of principle. The suggestion of the "new landlord's" attorney

that Mr. Deiberg be installed as proprietor for a time, to secure the

license voted last April, and later have it transferred to Mr. Purchase,

was not favorably received.

Bellevue Hall will resemble a "thimble-see" next Monday,—the

occasion of the sale of reserved seats for the Lyceum Course. As the

doors will be open all day, ladies will take their fancy work, bags of

cookies, and a supply of chewing gum, and wait for eight o'clock in the

evening. School children, factory employes, and gentlemen of leisure,

will find the seats very comfortable and the company congenial. For

the small sum of one-fifty, plus the reserved seat fee of twenty-five or

fifty cents, one cannot make a better investment,—a winter's enjoyment

once a month.

Some people have no idea of what saving is. The latest waste we

have heard of is the promiscuous throwing of ancient hen fruit. The

worst waste was that some of the Junior Band boys were in range of

the bouquets (?) on Tuesday evening, and were visibly affected by

the demonstration. Really, it was not kind, to say the least. In fact,

the contributors are likely to get into trouble if the offence is repeated.

More definite information will be given next week concerning the

Tuberculosis Exhibit to be held in Hampton for five days, commencing

Nov. 2nd. There will be moving pictures, lectures, and some fancy

shows which will make it worth while attending. Literature of various

kinds will be circulated throughout town and the surrounding territory.

Keep that week open, and attend the exhibit.

Many articles have been lost the past fortnight, in Hampton,—

some of which were of considerable value. Doubtless they have been

picked up by children, or by other persons who are waiting for a reward.

**Town Council Meeting.**

Council met in regular session on Wednesday evening, all members being present. Minutes of regular and special meetings were read and approved. Highway Committee reported a bid on graveling Myrtle Street; also recommended that Third Street be gravelled from Bellevue to Pratt, and the grading of Pleasant Street. This was ordered done.

Property Committee stated that a satisfactory heating plant had been installed in Town Hall. Also, that a coal bin and roof over rear door were needed. Same were voted.

**Universalist Convention.**

The New Jersey State Convention of Universalist Churches was held in All Souls Church, Hampton, Wednesday afternoon and evening. The first session was devoted mostly to business.

It was recommended that a picture of John Murray, the founder of Universalist Church, be placed in every Sunday School room of the denomination. Miss Goldberg, of East Orange, advised that, as New Jersey is the historic state, being the home of John Murray, the Churches of this State should be first to act upon the suggestion.

Through the kindness of a member the Hampton Church will be one of the first to do so.

The convention recommended that State Superintendent Dr. H. R. Rose, of Newark, be asked to confer with the officers of the State Convention of Unitarian Churches, and the Liberal Congregationalists, with reference to co-operation.

At the close of afternoon session, Lord's Supper was administered.

The evening session, which was regularly well attended, was devoted to the installation of the minister, Dr. W. Howatt Gardner.

Dr. Clarence Lee, of the Church of the Restoration, Philadelphia, presided over the installation, which took place at eight or ten years of wear.

There are scores of buildings in town covered with this paint, which look well after eight or ten years of wear.

The Hampton Paint is sold for less than other first-class paint, it has no equal, as it works well, covers well, and it keeps well.

**JOSEPH R. IMHOFF**

**Wizard of the World.**

Thirty-five years ago on the twenty-first of October, Thomas A. Edison produced the first successful incandescent lamp. To fully appreciate the importance of this wonderful invention one must go back to those days when household electric lighting was deemed impossible by the world's greatest scientists when the only illuminants were candles, oil lamps and now and then a gas plant in larger cities. Street lighting was not seriously attempted, stores and shops were not illuminated after closing hours and only a few small oil lamps and flickering candles served to illuminate the household after dark.

Those were strenuous days for Mr. Edison. Beside the enormous amount of work entailed by the operations of his manufacturing shops, he was elaborating the engineering plans for the first central station in New York City, covering carefully every detail; he was turning out several new inventions every day; and helping the Board of Fire Underwriters to formulate rules for the new art of incandescent lighting. He was also working on the innumerable details relating to isolated electric lighting plants, for which there was beginning to be a demand; he was directing the engineering and construction work of his electric railway out at Menlo Park. He was working about twenty hours a day at this time. He seemed to be utterly oblivious of the every day things of life. When he seemed to need new clothes, his secretary would order them and have them delivered to Mrs. Edison. When they arrived she would wait until he had gone to bed and then change all his things over from the old suit into the pockets of the new ones and leave that in place of the old suit. He would put it on next morning and just as likely as not go down to the machine works or elsewhere and get the new clothes covered with oil or chemicals.

Previous to 1881, the general public did not know what an incandescent lamp was. An engine and dynamo had been placed in the basement of Edison's office in Fifth Avenue, and the house was wired and fitted up with lamps and fixtures for the purpose of educating the public.

It was a matter of years before the general public acquired even a rudimentary knowledge of the art of incandescent lighting. This ignorance gave rise to a long list of most ludicrous incidents. The lamp works shipped some lamps to a customer, forwarding therewith the usual memorandum of shipment, which in this case read: "100 lamps, 110 volts." The customer returned the memorandum with this note written at the foot: "Lamps received but cannot find the volts in the package."

Developments in the new art of incandescent lighting came thick and fast from Mr. Edison in the early eighties. Improvement with dazzling rapidity. The manufacturing shops were buzzing hives of industry. Real money, however, was a scarce commodity. Mr. Edison had been obliged to finance the organization of the shops himself, and in doing so had to a large extent mortgaged his future. There was some fearful and wonderful financing done when the pay rolls of the four shops were made up at the week ends.

Late one summer afternoon in 1881, Mr. Edison was sitting in Major Eaton's office talking with him. The door opened and in came Mr. F. R. Upton, the manager of the lamp factory, which was then a small wooden building at Menlo Park. Mr. Upton was the one who, about a year previous to this time, had gone from Menlo Park to New York having on his arm a market basket containing all the incandescent lamps in the world.

"Hello! Upton," said Edison, "How are you making out?" "Fine," replied Mr. Upton exultantly. "We finished a thousand lamps to-day."

Mr. Edison said nothing but seized a pad of paper and figured for a few minutes. Then looking up, he said "In fifteen years you'll be making forty thousand a day."

As a matter of fact, the lamp factory was actually turning out about 45,000 lamps a day in 1896, and this number per hour is not unusual to-day.

**No Gunning Signs.**

Columbus Day was well honored by Hammontonians on Monday. Bank doors were not open, schools closed at one o'clock, bands played and sunrise bombs boomed. The parade of Italian societies was a good one, over one hundred men being in line with two bands and two excellent floats. At the Park, speeches were made in the afternoon, and in the evening as brilliant and as noisy a display of fireworks as any one wishes to see or hear.

**THE KILLARNEY GIRLS AND RITA RICH.**

The Killarney Girls appear in Irish costumes and, with an appropriate setting, present a program of instrumental music and singing, with emphasis on the latter. There are Irish songs that range from simple folklore to the Irish classics, all of which will be rendered by a company of real artists.

Miss Rita Rich, whose work is one of the special features of this company, is widely known in Lyceum circles, having been a member of the Elma B. Smith Company for some time—a most popular organization. One of the features of Miss Rich's work with the Elma B. Smith Company was her appearance in Irish folklore songs, attired in Irish costume.

The contralto soloist is Miss Marguerite Andrews, soloist for several years in one of the largest churches in Pittsburgh and who has appeared in concert work throughout the east.

Miss Etma Kinsolson, soprano, who was with the Pugh Company in 1912 under Redpath management, appears not only in the ensemble, but in the quartets, solos and as an accompanist. There are seven members in the company, all of whom are artists.

October 21st has been named Edison Day in honor of America's great inventor.

On that day every boy and girl should be told something of the wonderful achievements of the man who, starting life as a newsboy, later gave to the world the incandescent electric lamp. The highest development of his great invention is found today in
