WEDNESDAY, NOV. 22, 1871.

It seems to be pretty generally conceded that Hon. Edward Bettle will be re-elected to the Presidency of the Senate. He has made one of the best officers that body ever had.

These Democrats who are so much in love with Carl Schurz just now have perhaps not seen this passage in his Louisville speech: "The Democratic party, as a national organization, ought to have dissolved itself into its original elements as soon as the fifteenth amendment had become a part of the Constitution."

The matter of General Grant's renomination being settled to the satisfaction of the leading Republican papers, the Providence Journal—which must speak by the card, inasmuch as it is the organ of one of the United States Senators—takes up the subject of the Vice Presidency, and after administering a severe rebuke to Vice President Colfax for presuming to decline a renomination in advance, proposes to punish him by nominating him again by acclamation. Thus it is foreshadowed that the republican war cry in 1872 will be but the echo of that of 1868—Grant and Colfax.

Some of the basest pranks of the midshipmen at the Naval Academy at Annapolis, which called out the recent order of the Secretary of the Navy, were of the most barbarous character. In one case they took one of the "plebs" and held his head under running water for an hour, and then held him out of a third or fourth story window in a sheet, periling the boy's life had the sheet given away. In another case a pious young man was made to strip and dance, sing and preach on a table. Another, while standing on a table, had it jerked from under him, causing him to sprain his ankle.

The Board of Canvassers in Brooklyn have ended their labors, and the result will prove somewhat of an anomaly to the democratic "Ring" members. Only two democratic candidates on the city ticket are declared elected—Mayor Powell and Treasurer Sprague; while the republicans have secured the other three offices—Comptroller Schroeder, Auditor Shurman and Tax Collector Burrows—three of the most important posts in the city government, well supplied with much desired patronage; and have, furthermore, secured three justices of the peace. This is a most unexpected result, and indicates—being a direct and most crushing blow at the Ring—that the reform movement, although begun so late, has already ripened into partial success.

THE LEGISLATURE.—In accordance with time-honored custom Senator Bettle of this county will be re-elected President of the Senate, John F. Babcock, Secretary, John W. Newlin, Assistant Secretary, etc. In the House the most prominent candidate for Speaker is Nathaniel Niles of Morris. Mr. N. was one of the ablest members of the last House and passes in a marked degree the requisite for Speaker. There will no doubt be much important legislation asked for, and if this is of a public nature the people will not complain. But much of the time of the lawmakers of late years has been taken up in granting private acts, which could easily have been avoided by general laws. We look to the incoming legislature for a reform in this particular.—W. J. Press.

The New York Evening Post, characterizes the result of the election of New Jersey as "singular." It was indeed singular in this respect: while Parker's majority exceeds 5000 the majority of the popular vote is on the side of the Republican ticket. In fact the majority for the Republican Coroners in the State is about 4000. This proves, if it proves anything, that Governor Parker was elected by Republican votes. We understand the Governor recognizes this and is very grateful to his friends on the Republican side. It was just this sort of proceedings that wiped out a clean majority of 600 in Camden county and gave the Sheriff to our opponents and elected the only Democratic Assemblyman from the First Congressional District. We don't want the Republicans of this county to again make themselves the recipients of Democratic gratitude in any such way.

A Sketch of the New-Jersey Elections.

ITS MOTIVES AND ITS RESULTS.
Sir: Let me put the result of the election in New Jersey in round numbers, without worrying you or your readers with details of majorities in this or that county, which they know nothing about, and for which they have no just means of comparison. Suffice it to say that New Jersey has ever been one of the most evenly balanced of States, and therefore one of the most fertile, the Democrats winning about five races out of eight. Yet this year it was hoped that this change of shifting would cease. The Republicans last year carried the Legislature—there was no State ticket—by a brilliant majority. This year, when their prestige in the national councils and their influence in the campaign of 1872 would be materially affected, they have permitted a Democratic Governor to be elected by somewhere from 5,000 to 6,000 majority, while they have themselves secured a strong working Republican majority in both Houses of the Legislature, and the aggregate Republican majority on the legislative ticket is not less than 3,000. This, too in the face of the fact that Mr. Parker, the Democratic candidate for Governor is only the figure-head of a statesman, and of the further and more considerable fact that, like most minority parties, the Democrats put up their best men for the Legislature. The conclusion would seem to be that Mr. Walsh (Rep.) was beaten, and the Republican party victorious. The latter has certainly vindicated its power to win. For instance, in Essex County, the heart of the State, which gave last year 4,500 majority for Messrs. Hill and Halsey, (the county lying in two Congress districts), Mr. Walsh is beaten by 526, and the Republican Coroners, about whom there was no manner of contest, and who represent the vote of the year, minus the general apathy, were elected by 1,427 majority. In seven of the eastern counties, immediately surrounding the home of Mr. Walsh, the Democratic majority for Parker is 3,613; the Republican majority for Coroners, 965, which I take to be about one-third the straight Republican majority of the counties included. In the State, Parker (Dem.) has 6,000, and the majority for Republican Assemblymen is not less than 3,000.

Figures enough. New Jersey politics are no puzzle to a Jerseyman, and are easy enough to explain after election. Now what beat Mr. Walsh? Not the "Ring." That body of respectable gentlemen hunched their shoulders, took their Sisyphus stone, and rolled it up hill as well as they could. They are watching it roll down now. But all these other elements of power? Mr. Walsh is an Englishman, and as such essentially obnoxious to the Irish vote, but that was a mere nothing, and need not be counted. But his met also the consolidated opposition of the O. U. A. M., a powerful and intelligent organization, its members strong in influence among all the Trades Unions. It was the mechanics who beat Mr. Walsh, sprung as he was from the loins of their own class, and they did it with a quiet deliberation such as I have never witnessed before. They made no speeches, uttered no protest, and their purpose was only suspected—not known until election day. Then they had business at the polls, and the whole force of the workingmen's vote confronted Mr. Walsh. He gained absolutely nothing from his Church associations. His Democratic brethren voted for Parker. B.

POCKET DICTIONARY.—We have received from the publishers, 138 and 140 Grand Street, a copy of Webster's Pocket Dictionary, which is a great improvement over all previous editions and all similar works. In the first place it is neatly printed, and bound in morocco, with gilt edges. Then it contains 200 pictorial illustrations, which give a much clearer idea of the meaning of many words than could possibly be conveyed by the usual definition. The little volume, while being no larger than an ordinary pocket-book, embraces in its vocabulary a careful selection of over 18,000 of the most important words of the language, with definitions sufficiently clear, though necessarily brief, to meet the ordinary wants of any one requiring its use. Prefixed to the work are tables of money, weight and measure, abbreviations, words and phrases from foreign languages, rules for spelling, explanations, etc. It is in fact a most valuable little book, and is doubly worth the dollar it costs. The Publishers, Ivison, Blakeman, Taylor & Co., 138 and 140 Grand Street, New York, will forward it by mail on receipt of One Dollar, or it can be bought at almost any book store.

Every Saturday for Nov. 25, has a superb portrait of Pres. Grant. It is the best we have seen.

Peter's MUSICAL MONTHLY for December is to hand, containing nineteen choice pieces of Vocal and Instrumental Music, all of which can be had for 30 cents. It seems hard to believe, that so much can be furnished for such a small sum, but we know that it is. It comes regularly every month, and contains nothing but good Music. Bound volumes for 1871 are offered, post-paid, for \$5. They come elegantly bound in crimson cloth, gilt sides and edges, and are guaranteed to contain \$50 worth of choice Piano Music, (some 200 pieces.) It ordered per express, \$4.50 will secure it. We would advise all those seeking Holiday Presents to bear this work in mind. Music is always a proper present to a lady, and in no other shape can the same amount of good music be bought. It is published by J. L. Peters, 595 BROADWAY, NEW-YORK.

E. T. Bugbee, of Bethel, Vt., has made a discovery in tanning leather, which he claims will revolutionize the business. The material he uses is dye from furs—leaves. He has been experimenting with leaves for the past two months, and the result is entirely satisfactory. One ton of leaves will tan as much leather as six cords of hemlock bark, and will do the work in one-half the time. By mixing the leaves and bark in equal proportions, one-fourth of the time is saved. The leather tanned by this process is smoother, more flexible, and yet retains the strength of the rawhide in a greater degree than that tanned by bark. Mr. Bugbee exhibited some specimens at the Vermont State Fair, which were awarded the first premium, after being subjected to the severest tests.

The United States Supreme Court delivered an opinion, last week, in a case in which is involved the question whether under the act of Feb. 3, 1853, allowing pensions to widows of Revolutionary soldiers who married after Jan. 1, 1800, the pension commenced March 4, 1848, or Feb. 3, 1853. The pension Bureau has always held that the pension began in 1853, but the Court of Claims decided that it commenced in 1848. This decision the Supreme Court reversed, thus sustaining the ruling of the Pension Office. The amount involved in cases pending is about \$400,000.

STATE OF NEW JERSEY A PROCLAMATION BY THE GOVERNOR.

Whilst great trials and afflictions have come to the people of sister States, we of the Commonwealth, not more deserving of the mercies of God than they, have, in a peculiar manner, been the recipients of His Almighty care and goodness, during the past year. That we may, as one people, laying aside all differences of creed or faith, join together in grateful acknowledgment to Almighty God, for His mercies and blessings, I, THOMAS F. BAKER, Governor of the State of New Jersey, do hereby appoint
Thursday, the 30th day of Nov., AS A DAY OF Thanksgiving and Prayer. Recommending its observance as such by all our people.

Given at the Executive Chamber, in Trenton, this seventh day of November, in the year of our Lord one thousand eight hundred and seventy-one, and of the Independence of the United States of America the ninety-sixth.

THEODORE F. RANDOLPH.

This is the way they get shoe-fac-
tory down in Maine:
GARDNER, Me., at a recent meeting
voted to recommend that the city govern-
ment loan without interest, for ten years,
a sum not exceeding \$30,000 to any re-
sponsible party that will establish in the
city of Gardner a shoe or any other man-
ufactory that shall employ two hundred
workmen; and that said manufacturing
establishment be exempted from taxation
for the term of ten years.

The Vineland Railway is as un-
easy as an old hen with ducks. It changes
time, on average, about once in two
weeks. The latest change is on the
morning train for New York, which
leaves Winslow Junction at 11.20 instead
of 7.35 as heretofore. The other trains
same as the time-table on first page. We
will give the corrected table on Saturday
—if they don't change again before that
time.

COUNTY
Morse and Potter are capital fel-
lows to keep an audience in good humor,
as was evident at the Re-union Friday
evening.
Mr. Geo. L. Bolton, started a
subscription the last afternoon of the In-
stitute at Absecon, to raise \$20, for the
public school library. It was responded
to promptly and the amount raised in a
few hours.

OUT OF DEBT OUT OF DANGER is a
good old maxim. Being out of debt cer-
tainly keeps one out of a great many dan-
gers. Besides affording a comfortable
feeling to the mind it makes a man feel
independent to act as he pleases. It is
industry, economy, and thrift that enable
the working man to say, "I owe no man"
—and to be able to say this is a good cap-
ital. Neglect no opportunity of honestly
settling the debt. Something worth
the money may be obtained by purchasing
the Water Clothing from the Extension
& Co. at TOWN HALL, No. 518 MARKET
STREET, half-way between Fifth and Sixth
streets, Philadelphia, 19-20.

We had the pleasure of attending
the Re-union, or closing exercises of the
Teacher's Institute at Absecon on Friday
evening, last week. Arriving at Absecon
at half-past six we found the teachers and
the friends' families' the grand supper
which the people of Absecon and vicinity
had prepared in Walker's Hall. We
found two tables spread the whole length
of the hall, filled with guests partaking of
the good things with which the tables
fairly groaned. We were informed that
the dinner was like unto it. The utmost
good feeling seemed to prevail, and well
it might, for such a repast is conducive
to a good temper. Partaking hastily of
some of the good things, we hastened to
the church where the exercises were to be
held. We found the church already well
filled, and in a few minutes after there
was not a vacant seat in the church, which
seats 400, to 500 persons comfortably.
The exercises consisted of singing, reading,
recitations, etc., interspersed with re-
marks and speeches, some of which were sharp-
some sound and practical—some decidedly
bad, or foolish and out of place. How-
ever, everything moved along smoothly,
and every one seemed to enjoy the exer-
cises—which in the main were highly en-
tertaining, instructive and amusing. We
deem it unnecessary here to give a resume
of the exercises as we shall publish the
report of the Institute in full as soon as
it is prepared for us by the obliging Sec-
retary. At the close a unanimous vote of
thanks was tendered to the people of
Absecon and vicinity, for their kind re-
ception and their untiring efforts to make
the Institute a success.

Improvements in Elwood.
In addition to Irving & Cordry's Shoe
Factory a number of buildings are being
erected, and several projected. Mr. Thos.
Irving is getting the material out for a
new building in the corner next to Deane.
This building will be 32x90, four stories
high and will be used as a store and
dwelling with the fourth story for a hall.
This will be a substantial improvement.
Mr. Irving also contemplates the erection
of several dwelling houses with stores. Mr.
Sam'l Coombs purposes building on the
site between the Baptist Church and Mr.
Liebert. Messrs. M. Hogan and Godfrey
Edgort have material on the ground for
the erection of two dwelling houses. Mr.
David Voth has purchased a lot for a
house, and is building on it. Mr. Ryan's
corner lot next to Post Office. Mr. J.
R. Filer intends putting a two-story front

on his house. Mr. Liebert, Alto, the
Steam mill, will soon be in operation and
will run the year round. A Machine
Shop and Tin Shop will soon be in op-
eration also and it is expected by the first of
Feb'y two more Shoe Factories will be in
full blast. The main Avenue will be
strengthened and as the Weektown Road
is bound to go through it will bring con-
siderable trade from the lower section of
the Township. A Bank is strongly talked
of and it is thought we will succeed in
having one next Spring. A Wholesale
wright, Blacksmith and Paint Shop will
also be built soon. The Brass Band is
progressing rapidly and under the able
leadership of Mr. Quinn bids fair to be a
first class institution. A Lecture, Read-
ing Room and Circulating Library will
be started. Also a Lodge of Odd Fellows
as soon as the new Hall is finished. The
Building Association is doing a good
work. Three parties were here this week
to find a good site for a Public House.
There is plenty of public spirited and
merry men here, and Elwood intends
looking to her Laurels and we hope will
soon be the "Banner Town" of Atlantic
County.

Miscellaneous.
"Unquestionably the best sustained work of
the kind in the world."
Harper's Magazine.
Notices of the Press.
There are few intelligent American Families
in which HARPER'S MAGAZINE would not be an
appreciated and highly welcome guest. There
is a monthly magazine of an intelligent reading
family can less afford to be without. HARPER'S
Magazines are recommended. Harper's is ad-
dition. There is not a more intelligent paper ex-
panded on its articles and mechanical execution. There
is not a cheaper magazine published. There is
not, confessedly, a more popular magazine in
the world.—New England Homestead.
A repository of biography and history, liter-
ature, science and art, unequalled by any other
American publication. The volumes are
as valuable as a more work of reference as any
encyclopedia. HARPER'S MAGAZINE is a record of travel every-
where since the hour of its establishment. Liv-
ingstone and Gordon Cumming in Africa, Straits
among the Andes, and Ross Brown in the East,
Spoke on the Nile and Macgregor on the Jor-
dan—indeed, all recent travelers of note re-
present their most important discoveries re-
corded in these pages. Our artists see the best illu-
strations of our older writers find here their liter-
ary biography. Our artists see the best illu-
strations of their genius and the most enduring
specimens of their work in the Magazine.—N. Y.
Standard.
It is one of the wonders of Journalism—the
editorial management of Harper's.—The Nation.

SPLENDIDLY ILLUSTRATED.

Notice of the Press.
The Model Newspaper of our country. Com-
pleting all the departments of an American
Family Paper. HARPER'S WEEKLY has earned
for itself a right to its title, "A Journal of Civili-
zation."—New York Evening Post.
The best publication of its class in America,
and so far ahead of all other weekly journals
as not to permit of any comparison between it
and any of its number. Its columns contain
the most interesting and valuable matter that
can be printed. Its illustrations are numerous and
beautiful, being furnished by the chief artists of
the country.—Boston Traveller.
HARPER'S WEEKLY is the best and most in-
teresting illustrated newspaper. Nor does its
value depend on its illustrations alone. Its
reading matter is of a high order of literary
merit—varied, instructive, entertaining and un-
exceptionable.—N. Y. Sun.

**"A Repository of Fashion, Pleasure and
Instruction."**
HARPER'S BAZAR.

Notice of the Press:
It is really the only illustrated chronicle of
fashion in the country. Its supplements alone
are worth the subscription price of the paper.—
While fully maintaining its position as a mirror
of fashion, it also contains stories, poems, bril-
liant essays, besides general and personal gos-
sips.—Boston Saturday Evening Gazette.
There was never any paper published that so
delighted the heart of woman. Never mind if
it does cost you a new bonnet, it will save you
an hour of the price in the household economy it
teaches.—Frisco Journal.
The young lady who buys a single number of
Harper's Bazar is made a subscriber for life.—
New York Evening Post.
The Bazar is excellent. Like all the period-
icals which the Harpers publish, it is almost
ideally well edited, and the class of readers for
whom it is intended—the mothers and daugh-
ters in average families—cannot but profit by
its good sense and good taste, which, we have no
doubt, are to-day making many homes happier
than they may have been before the women be-
gan to take lessons in personal, household and
social management from this good-natured men-
tor.—The Nation, N. Y.

REDUCED PRICES.

No fertilizer introduced to the farmer of the
Middle and Southern States has given more gen-
eral and uniform satisfaction than this guano.
The trade in it has steadily increased until
the consumption now throughout the entire
country far exceeds that of any other fertilizer.
The large capital involved in its production
affords the surest guarantee to its continued ex-
istence. The company has a far greater inter-
est in the permanence of its trade than any
number of consumers can have; hence it is the
highest interest of the company to put their
best fertilizers in the Market, that their usual
facilities, aided by the best scientific anal-
ysis, can produce.
This guano is sold at retail by local agents of
the company throughout New Jersey, Dela-
ware, Pennsylvania and the Southern States,
and at wholesale by

THE
AMERICAN WASHER!
PRICE, \$5.50

The American Washer Saves
Money, Time and Drudgery.
The Fatigue of Washing Day no longer
dreaded, but Economy, Efficiency, and Clean-
ness, Clothing, sure.
In calling public attention to this little ma-
chine, a few of the invaluable qualities, not
possessed by any other washing machine yet
invented, are here enumerated.
It is the smallest, most compact, most port-
able, most simple in construction, most easily
operated. A child ten years old, with a few
hours practice, can thoroughly comprehend and
effectually use it. There is no adjusting, no
scrubs to annoy, no delay in adapting. It is
always ready for use. It is a perfect little
wonder. It is a miniature giant, doing more
work and of a better quality, than the most
elaborate and costly. One half of the labor is
fully saved by its use, and the clothes will last
one-half longer than by the old plan of the rub-
board. Three shirts at a time, washing three
in a wash, the solution of any fabric, from a
Quilt to a lace curtain or Cambric Handker-
chief, are equally within the capacity of this
LITTLE GEM! It can be fastened to any tub
and taken off at will.
No matter how deep rooted a prejudice may
exist against Washing Machines the moment
this little machine is presented to their wiser
all doubts of its saving efficacy and utility are
banished. It is a doubter and detractor are
now become the fast friends of the machine.
We have testimonials without end, setting
forth its numerous advantages over all others,
and from hundreds who have thrown aside the
unwieldy, useless machines which have sig-
nally failed to accomplish the object prom-
ised in prominent and loud sounding advertise-
ments.
It is as perfect for washing, as a wringer is
for wringing. The price, such a paramount
inducement to purchasers, has been placed so
low that it is within the reach of every house-
keeper, and there is no article of domestic
economy that will repay the small investment
so soon.

\$5.50.
All that is asked for this GREAT LABOR
SAVER, is a fair trial. We guarantee each
machine to do its work perfectly.

Romism as it is!

This book, Romism as it is, contains
the history of the Romish system, from its
origins to the present time, exposing its
frauds, its persecutions, its immorality,
its opposition to our public schools, and
its opposition to our public schools, and
civil and religious liberty. It shows its
intrinsic workings which strongly tend to
bring this country under full Romish control.
