

DR. JOHN BULL'S Smith's Tonic Syrup FOR THE CURE OF FEVER and ACUE Or CHILLS and FEVER, AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PAINLESS cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with perfect restoration of the general health. It is, however, prudent, and in every case certain to cure, if its use is continued. Smaller doses for a week or two after the main has been checked, more especially at night and long-standing cases. Under this medicine will not require any aid keep the bowels in good order. Should patient, however, require a cathartic, Calomel, after having taken three or four of the Tonic, a single dose of BULL'S STABLE FAMILY PILLS will be sufficient.

BULL'S SARSAPARILLA is the old and reliable remedy for impurities of the blood. Scrofulous affections—the King of Purifiers.

JOHN BULL'S VEGETABLE WORM DESTROYER is prepared in the form of drops, attractive to the sight and sweet to the taste.

We hear so much of "Readjusters," "Mahoneism," "Repudiators," etc., that we give our readers this, the best explanation we have seen:

The defeat of Mahone and the Readjusters may be a triumph of Democratic principle, but it is not a victory of common honesty or manhood. We do not hold Senators Mahone and Riddleberger to be the most pious financiers in the world, but they were engaged in a real effort to pay some part of the debt of Virginia and come to a compromise with the creditors, which would be something more decent than repudiation. The history of this debt is in no way creditable to Virginia, either before, during or since the war, and before we give vent to too much indignation against the Readjuster we should know the record.

The debt was contracted before the war, mostly for the benefit of the tide water region. The State then included West Virginia, which derived no value from the improvements made in the East. Up to the era of secession the interest on the debt was partly paid by borrowing money to pay it. During the war of the rebellion no part of the interest was paid. Beginning with 1870, payment of interest was renewed and was kept up during the provisional governments and for four years of Republican administration the interest on the debt was nearly paid, the payment in 1873-4 being \$1,691,768.

In the succeeding year the interest paid was \$1,691,191. In 1874-5, the payment was \$1,471,345. The total debt was about \$45,000,000, less \$15,000,000 which it was insisted belonged to West Virginia. During the war the State of West Virginia had been created, and allowing that the new State inherited \$15,000,000 of the old debt, the real debt of Virginia proper was about \$30,000,000. It was this controversy as to how much West Virginia should pay, if anything, that gave the excuse for all the quarrel that has since occurred in the "Mother of States and Statesmen," which has now been decided in favor of total repudiation.

The Readjuster party proposed to reject the \$15,000,000 chargeable to West Virginia and to further take advantage as well as it could of the law price of Virginia bonds. It came to an understanding with the bond holders, but not with the Bourbons. The latter opposed every step in the Mahone-Riddleberger movement, but in the last Legislature apparently submitted.

Mahone went on with more confidence in the negro vote than he was justified in holding. The Danville massacre scared many thousands of negroes from the polls and Mahone and Riddleberger were disastrously defeated. The Bourbons come into power and declare that not only will they repudiate the \$15,000,000 which they claim to be assignable to West Virginia, but with it the entire debt of the State. They say that the people have twice repudiated it at the polls, and that the will of the people must govern. They do not make any pretense of common honesty of purpose. They can reduce taxation by refusing to pay taxes, and that is the high tide level of the Bourbon Democracy of Virginia, their best morals. They stand confessed as open swindlers, just out of the clutches of the law.

Just how much is Virginia's gain from this Democratic victory? She gains the credit of being the last and most repudiator among all the States. Her bonds are not sold on the market at any price. Whatever her vast necessities for internal improvements, she must pay for them in cash in advance. No contractor would take her promise to pay for the building of a new public structure. She must follow John Randolph's squealing "pay as you go" policy, and whether she can collect taxes enough for current expenses is doubtful. Mississippi does not let her see they color. Her lawyers act as the go between between the indirect taxpayers and the executive officials. But the State that does not pay its debts cannot collect its direct taxes. The citizen has the same right to repudiate as the State of which he is a part, and governments lose all recognition worthy of the name. Capitalists will not lend a dollar to repudiating States. Mahone's readjustment was in the nature of a compromise by a bankrupt conger with its creditors, and left the gates open for further business transactions, advantageous to both.

There is no State that does not at times meet the necessity of incurring a debt. Supposing, and we think this the wisest policy, that a State should never build railroads or canals or lend its credit to them, there is sure to come a time when it must meet the costs of war or local disaster. It should always be in credit to borrow at par or at a premium, as is constantly the case with municipal governments in the issue of temporary loans, properly guarded by a sinking fund. But the State that must stand alone in all emergencies must tax higher than it otherwise would, and levy the tax on an unwilling people.

An enricher of the blood and purifier of the system; cures lassitude and lack of energy; such is Brown's Iron Bitters.

Burlington is the leading prohibition county. The temperance men there gave Parsons 524 votes and elected a Democratic Assemblyman in the Second District.

The Trenton Dispatch says the discovery of an error in the announcement of the final vote of Hudson county reduces Abbott's plurality to 759 and leaves him in a minority of 105 on the whole vote, without counting the scattering.

Keyser, W. Va., Dr. W. D. Ewin, says: "Many esteem Brown's Iron Bitters as an excellent tonic."

The New Jersey Sunday School Association has elected the following officers: President, Jesse L. Harbut, of Plainfield; Corresponding Secretary, S. W. Park, of Jersey City; Recording Secretary, W. L. Plumer, of Brick Church, Orange; Treasurer, Walter M. Patton, of Camden.

Ayer's Sarsaparilla thoroughly cleanses the blood, stimulates the vital functions, and restores the health and strength. No one whose blood is impure can feel well. There is a weary, languid feeling, and often a sense of discouragement and despondency. Persons suffering this feeling should take Ayer's Sarsaparilla to purify and vitalize the blood.

NOTED MEN!

DR. JOHN F. HANCOCK,
late President of the National Pharmaceutical Association of the United States, says:
"Brown's Iron Bitters has a heavy sale, is conceded to be a fine tonic; the character of the manufacturer is a voucher for its purity and medicinal excellence."

DR. JOSEPH ROBERTS,
President Baltimore Pharmaceutical College, says:
"I endorse it as a fine medicine, reliable as a strengthening tonic, free from alcoholic poisons."

DR. J. FARIS MOORE, PH. D.,
Professor of Pharmacy, Baltimore Pharmaceutical College, says:
"Brown's Iron Bitters is a safe and reliable medicine, positively free from alcoholic poisons, and can be recommended as a tonic for use among those who oppose alcohol."

DR. EDWARD EARICKSON,
Secretary Baltimore College of Pharmacy, says:
"I endorse it as an excellent medicine, a good digestive agent, and a non-injurious in the fullest sense."

DR. RICHARD SAPIINGTON,
one of Baltimore's oldest and most reliable physicians, says:
"All who have used it praise its standard virtues, and the well-known character of the house which makes it a sufficient guarantee of its being all that is claimed, for they are men who could not be induced to offer anything else but a reliable medicine for public use."

From the REVIEW. Policeman Adams, who recently shot himself is thought to be recovering, notwithstanding there is a big bullet in his brain.

It is stated that a new window-glass factory is to be erected in Aco, by a company with a capital of \$15,000. It is to be in operation by the first of next year.

In accordance with the law which requires the Sheriff to renew his bond every year, Sheriff Collins, on Tuesday morning, filed a paper for \$20,000, his bonds-men being Edward Wilson, Gen. E. Wright, Amariah Lefe, S. R. Morse and D. L. Collins.

Blind are almost nightly captured by Maj. Wolf, from the tower of the light house. They are attracted by the light and flutter against the wire which protects the glass. They go out on the experience little difficulty in taking them, some of them dead but many alive. They are of various species.

Tuesday morning the Long Beach Railroad Company completed the purchase of the Tuckerton Railroad, which runs from Tuckerton, about fifteen miles above Atlantic City, to Whiting. The terms of the purchase have not been public. The road is a small one, and at present barely pays expenses.

The Long Beach Railroad is a corporation under the control of the Pennsylvania Railroad, and is designed to run down the entire length of Long Beach from Barnegat City to Absecon.

The vest manufacturing season is at its height, and thousands (?) of them are being made in our town every week.

Dr. Edward North is building a new piazza on the west of his house and making other improvements. It is a good thing he is doing it now, for if he waited until he came back from Trenton, some of the Democratic papers would have something to say about it.

The fire that was raging in the western part of our town last week, that started from the railroad, burnt over a good deal of woodland. Mr. Jenkinson and his hands and Mr. Lobdell, put in several hours of hard labor fighting the flames, to save their property. At one time Mr. Ferris' cranberry bog was in danger.

Mr. R. D. Whitmore has been visiting among relations and friends here, for the past few days.

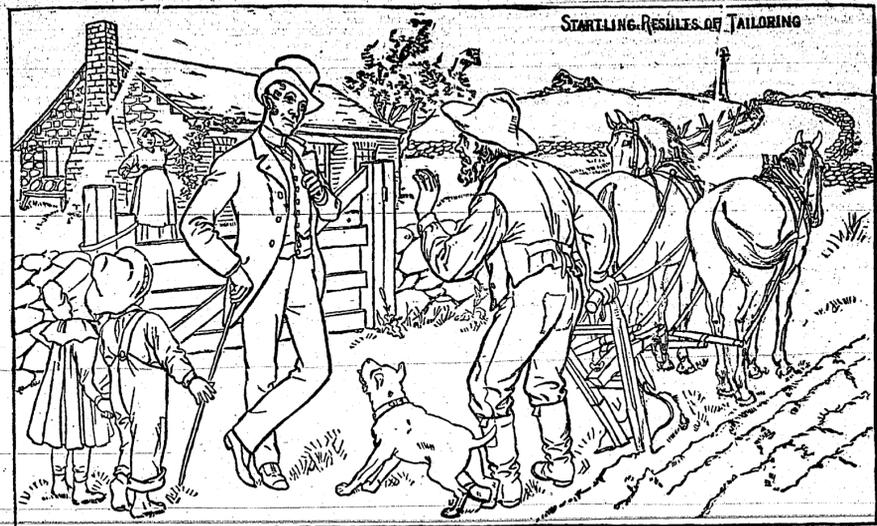

Mrs. Fred T. Bowles, (wife Dr. B.'s son) and two children, including Mary Robbins, arrived in town on Tuesday, and will spend the winter here.

The following important opinion was recently given by Chief Justice Durfee on the responsibility of publishers:

"I think that a public newspaper has a right to comment upon and criticize the conduct of a public officer in the discharge of his public duties. I think that if the publishers of a newspaper discover what they consider to be defects in the performance of public duties, they have the right to point them out. If a public officer is in fault, and there are facts which suggest fault on his part, I think that the public press has a right to criticize and to ensure him. If the publishers of newspapers have this freedom of comment, they must of course, being fallible men, sometimes give utterance to criticisms which are unjust and unfair, and which wiser men, unexcited and calm, might not approve. But, gentlemen, if in the exercise of this freedom of comment, they act fairly and honestly, and in a way which is right, they cannot be held accountable."

A New York society girl was told a very funny story the other night, and for the life of her she couldn't help smiling. The result was, her complexion broke in several places.

Last March I invented a screen that I am going to have patented as soon as I can think of a name for it, says Bob Durdette. Two women sat down in the seat before me. Repeating as usual upon the closeness of the car, they banged open the window, and I held on to keep from being blown over the back of my seat. I took the newspaper I was reading, folded it half, and held it into a semi-fringe shape held it at such an angle that the blasts of March, howling in at the window, were not only turned away from myself, but were directed against the back of the neck of the window opener. When that window slammed down, which was just as soon as the ventilator dared to let go of her bonus with both hands, it wove up the man asleep on the wood box, and got a glare that made it want for me for fifty miles. But I didn't open the window and let in the cold. I only exercised the right of a free man and turned it away from myself.

Isn't there some way to prevent these frequent forest fires? Too often they result from carelessness, occasionally from locomotives. If there is no law to cover all causes, there should be. The amount of growing timber annually killed by the fire is a serious loss to property owners in this section of Jersey.

In recording the improvements in Green Mount Cemetery, last week, we erred in one name—stating that memorial tablets had been erected to the memory of Mrs. W. L. Seely and Miss Nelly Seely; we should have said Miss Ada Seely. Miss Nelly is still with us, and host of friends will hope that many happy years will pass ere she is called to go hence.

It is said that a dog attaches himself to the person of his master; a cat, to her home, whoever occupies it; but here is an exception. A brother of Mr. George Johnson, of Hammonton, who resided with his family, on Twenty-third Street, New York City, when moving latterly, with his family, intended to bring his pet cat, but forgot it until they reached the depot, and then had not time to return. When their goods were taken from North Hammonton depot, two days later, they heard a faint "meow," but could see no cat, and thought little of it. When they reached their new home—on Eleventh Street—the sound was repeated, and Mr. J. called, when out from among the internal arrangements of the sofa crawled their own cat. It occurred to them that this sofa was the last article taken from their New York house; yet what sort of instinct prompted that cat to hide herself in so peculiar a place, and to remain hidden for so long a time, and under such circumstances? Did she "reason it out?" It looks that way.

Rev. Mr. Loop is happy in the company of his mother, Mrs. Eliza Loop, who is now visiting him. This lady is a daughter of Gen. W. Ross, one of the survivors of the historical Indian massacre at Wyoming. The trip from Rochester, N. Y., seems a long one for a lady eighty-four years of age.

ASSOCIATION BROCK.—At the Thirtieth Annual Meeting of the Hammonton Loan and Building Association to be held on Thursday, the sixth day of December next, a New Series will be issued, and an opportunity afforded of purchasing stock at par. Members, and all who desire to take stock, are requested to be present to hear annual report and assist in election of officers for the ensuing year. A. J. SMITH, Secy.

It is a particularly painful duty to record the death of Rev. Joseph A. Jones, pastor at New Brunswick, who "passed away" on Tuesday last, Nov. 20th, 1888, at 5:18 p. m. He, in common with very many others in Hammonton, mourn the death as a personal affliction. During his three years' pastorate of the Hammonton M. E. Church, Mr. Jones endeared himself to nearly all with whom he came in contact, the only exceptions being those whom he openly and fearlessly rebuked for what he considered sin against his God. As a public speaker, there were very few ministers his equal—especially among those of his age. He was both eloquent and forcible in his preaching. As an enduring monument to his memory, we point to the handsome house of worship in this place, which was completed and dedicated through Mr. Jones' persistent labor. At East Long Branch, also, when he was sent from here, a beautiful chapel was built by the same energetic man. At New Brunswick, his people will be almost inconsolable, for he was held in the highest esteem.

Though in his early prime, full of vigorous life, that mysterious malady, typhoid fever—added what seemed to mortal an indispensable factor in the work of the Church.

Memorial services were announced at his Church on Friday; at the Central M. E. Church, Trenton, to-day (Saturday) at 12:30. The remains are to be taken to Mount Holly, for burial, service at four o'clock this afternoon. It would be a graceful thing for friends here to attend.

Mrs. Jones and her little boy have the heartfelt sympathy of all.

The "Camp fire" given by the Grand Army Post, on Thursday evening, was a success. These entertainments are gotten up to call out the "old soldiers" and their friends, and such other Posts as they may invite, to keep alive their interest in each other, to make new acquaintances, to compare notes, and last, but not least, to have some fun. All this was accomplished on this occasion. Something over sixty comrades came from "Joe Hooker's" Post, of Atlantic, save all "Gen. Stahl's" Post, of Egg Harbor City, and a few scattering ones from Camden, Haddonfield, Vineland, etc. The comrades from Atlantic chartered a special train on the Narrow Gauge Road, bringing their drum and life corps with them. The Hammonton boys met them at the depot and escorted them to the hall. In the Post room, an hour or more was spent in listening to music by a volunteer orchestra, songs, speeches, and stories by comrades generally. By and by the drum sounded the supper-call, and in the room below we found tables set with the plates, cups, and spoons, with an abundant supply of the soldiers' favorite dish—BEANS—with coffee and bread to match. Well, it looked as though everybody was hungry, but provisions held out. After supper, smokers were supplied with pipes and tobacco, or cigars, and another hour was spent in chat and "chit-chat,"—a sort of "free and easy" style that recalled the hours when such an assemblage of men was attended with greater danger; when marriage often covered deep anxiety because of the uncertainty of what the morrow had in store. We cannot explain or understand it, but there is no oath-bound confederation of men who seem so closely united, so heartily fraternal, as these veterans of the war. It is a mysterious tie, and though we feel the drawing, like the rest, it is still mysterious. At midnight, the visitors were escorted back to the depot, and soon started towards homes and families. May the days be few before another meeting of this company; may the Supreme Commander enroll us comrades in his enlistment book, to be he may find an eternal resting place in the last "Soldier's Home,"

Mrs. Wm. Sturdivant is slowly improving from her injuries caused by a fall, last week. She still suffers severely.

Weather, this week, as mild as spring.

Mr. W. T. Richardson and wife, of Cambridge, Mass., visited Mr. Valentine (Mrs. R.'s brother), this week.

Mr. Brainard, an employee in the Main Road shoe-factory, will occupy the house to be vacated by P. H. Jacobs.

Mr. Robert Little has purchased the village lots corner of Peach and Horton Streets, lately the property of Jesse Rogers.

We regret exceedingly that a communication from Alex. H. Sharp came too late for use this week. It contains several very pertinent points.

Mr. Walter Jewell (medium of England), will give free lecture on Spiritualism, at Union Hall, on Wednesday evening, Nov. 28, commencing at 7:30. All are invited.

Every comrade of Russell Post, G. A. R., is urged to be present at the regular meeting on Saturday evening next, Dec. 1st. Comrade Lord, of Vineland, the Department Inspector, will be present and inspect the Post. It is desired to have a large attendance. Several recruits will be mustered in, probably. Election of Post officers for the next year will also take place on the same evening.

We find the following obituary notice in a Whittey's Point (N. Y.) paper. Mrs. Newcomb was a sister of Mr. Z. U. Matthews, of this place, and was stricken with paralysis while visiting here.

Pluma S., wife of O. S. Newcomb, and daughter of Griswold and Sally Matthews, of Orwell, Bradford county, Pa., died at her home in Willetts, N. Y., Sept. 27th, 1888, aged thirty-eight years.

Mainly through the influence of Christian home training, sister Newcomb gave her heart to God early in life and united with the Presbyterian church, of which she was a consistent member till her death. It was commonly said of her that, like her Saviour, she went about among the poor doing good. About two years before her death she manifested a stroke of paralysis which permanently impaired her mind, but so strong was her spiritual life that she frequently joined her family in their devotions. Truly, for her to live was Christ and to die was gain. Her death was peaceful. Two days before it she received a third stroke of paralysis which was its more immediate cause. The funeral was held in the Congregational church on Sunday afternoon. A large congregation gathered and the funeral tributes were appropriate and beautiful. We would commend the bereaved families unto God and the word of his grace which is able to build them up and give them an inheritance among the sanctified "friends in Heaven." J. H. B.

MORTON—CONKEY. On Wednesday evening, Nov. 21st, 1888, at the residence of M. J. Pedler, M. D., Hammonton, N. J., by Rev. Louis K. Lewis, Mr. Ralph L. Morton and Miss Bertha Conkey, eldest daughter of Mr. J. R. Conkey.

Died.

DAVIE.—On Friday evening, Nov. 16, 1888, William E. Davie, aged 27 years. Thus passed away one of the best known and well-esteemed young men of Hammonton. For something like two years he has been in ill-health, and during the past month or more he has suffered intensely. The funeral services were held at his father's residence, on Main Road, conducted by Mr. J. O. Ransom, who addressed the friends upon "The day of a man's death is better than the day of his birth," because at his birth he has yet before him all that an immortal spirit has to learn; all the sorrows and trials of this life are yet to be endured; at his death he has passed this first stage of being, and if he has lived a pure life, he is prepared to progress upward, in the company of all the good of earth who have passed on before.

A Spoken Marriage

The singular case reported from Waupun, Wis., of the marriage of one woman to another, has a parallel in the case of a woman who was married to a man some years ago. In the Spring of 1869 there appeared in the town of Barrett, in the western part of Monroe county, a couple calling themselves the "husband and wife." The man was of medium height, dressed in tattered hunters' garb, and carried a long single barreled rifle. He wore no hat, and his hair was covered with black curly hair streaked with grey. The woman was taller than the man and was meanly clad. She was fine looking, wore spectacles, and her conversation, showed that she was educated and intelligent. For two years the strange couple roamed about the township, living most of the time in the woods, but frequently making their appearance in the villages, where the man would deliver wild and incoherent harangues on religion, and both would beg for food and shelter. In 1871 they had become such a nuisance to the inhabitants that they were arrested on a charge of vagrancy and committed to jail in Stroudsburg. While in prison the discovery was made that they were both impostors. It was afterwards learned that they had together left the Almshouse of Delaware county, N. Y., a short time before their appearance in this country. The imposture was discovered by the Stroudsburg police, upon whom they came back to Delhi, where the following strange history of the pair was learned:

In 1837, Lucy Ann Lobdell, the seven-year-old daughter of an old farmer living at Long Eddy, on the Delaware river, was married to George Slater. She was known far and wide as an expert shot with the rifle, and not only so, but she was also a fine singer. A wild game for that part of the valley was then famous. After a year of married life, Slater deserted his wife, leaving her in destitute circumstances, with an infant two months old. Her parents were very poor, and unable to give her a home. They were willing to relieve her of the care of her child, but she would not do so, and finally, after her charge, she then dressed herself up in male attire and disappeared. Soon afterwards a young man of prepossessing appearance opened a singing school in the village of Bethany, Wayne county, Pa. He gave his name as Joseph Lobdell, and became a great favorite among the young women of the village, who had been joined in a singing class. He was a good singer, and violinist and had a fair knowledge of music. Before the term of his school was over he became engaged to one of his pupils, the daughter of a prominent leading citizen of Bethany. The day was set for the wedding. News of the presence of the young singing master in Bethany reached the ears of George Slater, who was then in the neighborhood, and suspicion was aroused that the man who was missing Lucy Ann Slater, whose musical accomplishments were well known in her native place. Investigation proved that the man who had just left the country, the girl has since been happily married.

A Man and Fish Duel

On a ship in the Atlantic sea every soul on board crowded to the side to witness the duel. It was bound to be a most exciting one, for the combatants must die. The brute was what is known as a right shark, and was about 13 feet long. It is black and shining black, set with white, made me shudder. "Ukuba met the first rush of the monster by darting aside, and letting the huge bulk go by him. He made a lunge with his sword at the tail as it whirled past, and a thin jet of blood on the clear water told that his aim had been a good one. While the shark was near he swam with half his body out of the water, taking good care that legs were never much below the surface, but when it went by he dropped to the neck, and looked up at with a grin on his old copper-colored face. "My kill will be a feast," he said. "The next rush was stillular to the first; but this time, when the white belt showed itself, Ukuba was beside it. He saw the point of his sword flash into its right eye, and then the needle dived, coming up thirty yards away. "I began to breathe easier now. The fellow carried himself in the water with down out of sight, leaving nothing but the shark's tail and the water's surface. Then she wrote home to her mamma, explaining the exact situation of affairs, adding that they were both so much surprised and so much interested, and rich, that she could not decide between them, and closed with the question: "Will you shall I do?" Ten days later she received a cablegram from mamma: "I'll sail to-morrow. Hold both until I arrive."

The next transatlantic steamer brought Mrs. Blank with her second daughter, just turned eighteen, and fresh from school. On her arrival, the old lady once took the helm of affairs, and strove to direct the conduct of the policy of the companies in treating us (wives and encouraging the public to believe the same. They are always securing new patents for their conductors from robbing them, placing guards in the cars asking the passengers that, as it is probable that we will steal, to kindly inform us. After the lapse of a few minutes the familiar form came into view again, and Ukuba's body rested with his eyes on the enemy. There was no rubbing on the shark's part now. It advanced slowly, ready to attack, and then, as if motion of the native. It seemed determined to approach him so slowly that its momentum could not carry it past him. He waited until the monster was not ten feet from him, and then, assuming the aggressive he darted forward, buried his blade to the hilt in its eye, and then swam leisurely to the ship. For a moment he was at a radius of many yards was lashed into a white foam by the dying struggles of the monster. At times he would show himself completely out of the water, and then he would be seen climbing into his canoe, "me kill 'um."

Etiquette at Places of Amusement

It is evident that a new text-book is needed on etiquette in places of amusement. There is a good reason why the police consideration which well-bred men and women show to each other in church should not be exhibited in the theatre, and it is because the concert room is a decent respect for the rights of others always characteristic of the true gentleman under all circumstances, and the theatre is a place where the audience is comfortable and convenient of an audience is deficient in good manners. Some of the theatre are so offensive to good taste as to be almost unbearable. There are those who come in late on purpose to be fashionable or to be looked at, who, while the performance on the stage is in progress, disturb the audience by talking to their row. Another impolite class is composed principally of young men, who invariably go on to the conclusion of every act, and return with the odor of the theatre on their faces. There are also those who, when they return, the ladies and gentlemen, must rise and let them pass. Another class is composed of those who are constantly talking while the play or the music is in progress; another is the class who are constantly kicking the seat in front of him, not reflecting that his neighbor's seat was paid for and that he ought to be allowed to occupy it undisturbed. Last of all is the woman in front of you with an enormous hat, which completely hides your view of the stage. She is the greatest nuisance of them all.—Chicago Journal.

Roman Arena

The remains of the Roman arena which were brought to light in Paris some time ago are in a much better state of preservation than was at first imagined; and now that the passage, 100 feet long by 20 feet wide, which leads down from the main entrance to the arena itself, has been cleared of the rubbish which has accumulated there, the ruins will look like when the other obstructions have been removed. "Descending into the amphitheatre by this passage," says the St. James' Gazette, "the visitor will have to his left the stone seats rising one above the other, in front of him the semicircle formed by the tiers of arches, and to his right the wall which has been almost entirely well preserved. Only one half of the arena has been excavated; but the other half, which belongs to the Parisian city company, will probably be purchased by the municipality; and in the meanwhile the various fragments of columns, sculpture, etc., which are now in the Muséum, and which are known to have been removed from the arena, will be taken back.

Only Eighteen Steps a Day

"Did you ever try to keep soul and body together on \$3 a day and work seventeen hours out of the twenty-four?" asked a conductor of the city passenger railway companies to a reporter. "If you did you will understand why some days I give the wrong change and carry passengers who have no destination. Why do you stay then and wear my life out? It is because I have a wife and five children and I cannot afford to take the time to look for other work now that the winter is close at hand. I need the money I get here and must stand this until I get something else. Do conductors as a rule stay long at the business? Well, I think not. The wear and tear of a year or two on the cars is enough to wear any average man out. My duties are: First, I report as early as possible as to the condition of the cars. Second, I take the night before, get my tickets and orders for the day. Then when my turn comes I take the car out. You know that it is my responsibility for the car, not the driver. I am responsible not only for my end, but for his. Then I am responsible for any delays. You know we are timed at about a minute a mile, and must not be out of it. If we are ahead of time we lose; if we are behind we rush."

Match-Making

American mothers have acquired some reputation for skill and energy in conjugal management on behalf of their daughters. A Parisian newspaper some time ago recorded an exceedingly clever bit of match-making, executed by an American lady of this order, in brilliant style. Her daughter had just returned from New York with some friends for a tour of Europe, and after "doing" the continent, had returned to the French capital for several months' rest and pleasure. Attractive and clever, she had many suitors, some more, some less desirable. She could not marry them all, so she adroitly reduced the number to the best of the lot, of course. Then she wrote home to her mamma, explaining the exact situation of affairs, adding that they were both so much surprised and so much interested, and rich, that she could not decide between them, and closed with the question: "Will you shall I do?" Ten days later she received a cablegram from mamma: "I'll sail to-morrow. Hold both until I arrive."

How to Cleanse the Waste Pipe

One of the most frequent and trying annoyances of house-keeping is many can testify, and which a writer in the Philadelphia Ledger freely asserts, is the obstruction to the free quick outlet of the waste water of the washstand, the bath-tub, and the kitchen sink. This is caused by a gradual accumulation of soap, grease, refuse, paper, rags, meat, bones, or other refuse, which check and finally entirely stop the overflow of the waste water, and then the plumber is called in to remove the stoppage with force pump. "Sometimes this is affective, at others the offending waste-pipe is out and a new one put in its place at considerable cost. But the plumber is not always near at hand, or free to come at one's call, and the matter demands a man that is intelligent, and that they'd better method of clearing the pipe is as follows: Just before retiring at night pour into the pipe enough liquid polish lye of 30° strength to fill the "trap," as it is called, or best portion of the pipe just below the outlet. About a pint will suffice for a washstand, or a quart for a bath-tub or kitchen sink. Be sure that no water runs into it till next morning. During the night the lye will convert all of the oil in the pipe into soft soap, and the first current of water in the morning will carry it entirely, and leave the pipe as clean as new. The writer has never had occasion, in over 30 years' experience, to make more than two applications of it in any one case. A remarkable example of the value of this process was that of a large drain pipe which carried off the waste of an extensive poultry house, near Philadelphia, and under a beautiful lawn in its front. A gallon of the lye removed all obstruction in a single night, and saved the necessary expense of digging the pipe and disfiguring the greenward of the lawn, as the plumber intended, until advised of this process. The soil under the drain pipe is small in thickness in the shops is not recommended for this purpose; it is quite commonly misnamed, and is called caustic soda, which makes a hard soap. The lye should be used in a glass bottle or demijohn, covered with wicker work, and plainly labeled; always under lock and key, and not in actual use. It does not burn upon metals, and does not corrode the pipes as do strong acids.

AT CROSS PURPOSES

"Dermot" cried my father one morning as I entered the breakfast-room, where the other members of the family had already assembled, "you're a down-right idiot!" "Indeed, sir?" I replied. "May I ask how I have been fortunate enough to earn so distinguished an appellation?" "Really, my dear Dermot," put in my mother, in her mild and most persuasive voice, "you ought to have some consideration for your father's wishes, and your advancement in life." "You are the only son we have, and it is but natural that we should be anxious to see you comfortably settled down."

"Such an excellent chance—everybody says so," dewailed my sister Kathleen, in her languid, laconic manner. "Everybody's extremely kind, I'm sure," I retorted. "But I have yet to learn to what I am indebted for the very kind and flattering remarks that assail me on all sides this morning." "The fact is, however, I knew very well. We had been at a ball on the previous evening, and I had chosen to ignore the presence of a certain young lady whom my parents had more than once assured me was "the very thing." "Dermot," my mother said, emphatically, "your treatment of Miss Rippleton last evening was simply disgraceful!" "And can it be possible, that it is your serious intention to let this brilliant match slip through your fingers, as it were? I will not believe it, I would be the act of a maniac!"

"Of course, my dear mother, I'm a maniac. I cannot help it, any more than Miss Helen can prevent herself from admiring the beauty of terrestrial and celestial objects at one and the same moment." "How can you be so uncharitable, my dear," murmured my mother. "We ought not to look slightly upon our neighbors on account of their little failings."

"This true, one of poor Helen's eyes is somewhat twisted; but then, my dear boy, reflect how many times this blemish is cancelled by—"

"Oh, spare me, mother—in pity spare me!" I cried, beginning to get theatrical again. "Do not, I beseech you, afflict me with a catalogue of Miss Rippleton's perfections. I know them, and I don't need you. Once for all, understand me, no earthly power could make me offer her my hand, and my heart is not mine to give!"

Then ensued a silence. My father, mother and sister stared at me incredulously. The late I carried my eyes to the ceiling, and perceived beyond the limits of discretion. Ten minutes later I had counted the best horse in my father's stable, and was galloping over the country as though pursued by an army of ogres. Does the reader wish to know whether I was bound?

I was going to see my wife. Yes! I was a married man. Two months previously I had stood at the altar with the prettiest little darling in all Munster. The siren who had woven such a spell around a heart hitherto impervious to Cupid's insinuating whippers was the orphaned daughter of a village apothecary. After the death of her father, which had taken place some twelve months before I made her my own, Fanny McGuire had formed a home with a maternal uncle, her only surviving relative. This old gentleman I had been fortunate enough to save one dark winter's night on a lonely country road, from the clutches of a bully ruffian who had taken fancy to his massive gold chain, and, probably, to his well-filled purse also.

Overwhelming with gratitude, the poor man insisted upon my accompanying him to his home. The consequences were mutual. I was presented to the beautiful Fanny McGuire, fell in love with her, and eventually asked her to become Mrs. Fanny O'Neil. How vividly do I recall that beautiful ride on the morning my story opens.

What Did I See?

There are many fancied sorrows in the much used word "perhaps." And many joyful sorrows. "I wish you would be a little more cheerful," said a friend to a pale, pale, pale man. "To pale, pale broad a sphere? To bid out to see to come or go. Or down them with a spear!"

We had been at a ball on the previous evening, and I had chosen to ignore the presence of a certain young lady whom my parents had more than once assured me was "the very thing." "Dermot," my mother said, emphatically, "your treatment of Miss Rippleton last evening was simply disgraceful!"

"And can it be possible, that it is your serious intention to let this brilliant match slip through your fingers, as it were? I will not believe it, I would be the act of a maniac!"

"Of course, my dear mother, I'm a maniac. I cannot help it, any more than Miss Helen can prevent herself from admiring the beauty of terrestrial and celestial objects at one and the same moment."

"How can you be so uncharitable, my dear," murmured my mother. "We ought not to look slightly upon our neighbors on account of their little failings."

"This true, one of poor Helen's eyes is somewhat twisted; but then, my dear boy, reflect how many times this blemish is cancelled by—"

What Did I See?

There are many fancied sorrows in the much used word "perhaps." And many joyful sorrows. "I wish you would be a little more cheerful," said a friend to a pale, pale, pale man. "To pale, pale broad a sphere? To bid out to see to come or go. Or down them with a spear!"

A weight placed on the human scale On either side we choose To balance down the world or wall Of life's most changing hues; A hinge upon the door of chance; Each way it swings at will; A hand with flouting lance That points to good or ill.

A keepr in the hand of hope; A path to "It may be," Where joys or sorrows may slope With possibility. O Hope, bless mistress of the soul, To melancholy, thou enemy, We'll through the earthly portals stroll, And weave perhaps robes of brighter hue.

"Dermot" cried my father one morning as I entered the breakfast-room, where the other members of the family had already assembled, "you're a down-right idiot!" "Indeed, sir?" I replied. "May I ask how I have been fortunate enough to earn so distinguished an appellation?" "Really, my dear Dermot," put in my mother, in her mild and most persuasive voice, "you ought to have some consideration for your father's wishes, and your advancement in life."

"You are the only son we have, and it is but natural that we should be anxious to see you comfortably settled down."

"Such an excellent chance—everybody says so," dewailed my sister Kathleen, in her languid, laconic manner. "Everybody's extremely kind, I'm sure," I retorted. "But I have yet to learn to what I am indebted for the very kind and flattering remarks that assail me on all sides this morning."

"The fact is, however, I knew very well. We had been at a ball on the previous evening, and I had chosen to ignore the presence of a certain young lady whom my parents had more than once assured me was "the very thing." A Few Facts Concerning the 4 C's, or

Business College.

It has the most practical and complete course of study. It omits nothing necessary to a thorough business education, yet can be accomplished in a remarkably short space of time. It has novel and original methods of teaching, which are attended by astonishing results. The student is interested from the start, and never fails to make satisfactory progress. It has the largest and best appointed rooms. The most expensive and perfect appliances. It employs the best teachers, and pays the most liberal salaries. In fact, it is the liveliest, most thorough and complete institution in the country. It has been established 18 years, and sent out thousands of young men and women whose success attests its efficiency. It is a member of the Bryant & Stratton Chain of Colleges, or I. B. C. A., with real prospect of scholarships, etc., all the advantages of intercommunication so indispensable to a course of modern business training. No person contemplating a course at a Business College, or desiring a practical education, can afford to decide upon a school without investigating the claims of this. Special accommodations for ladies. Fall Session begins September 3d. A handsome illustrated Catalogue and College Paper sent on application to

AYER'S Sarsaparilla

cures Rheumatism, Neuralgia, Rheumatic Gout, General Debility, Catarrh, and all disorders caused by a thin and impoverished, or corrupted, condition of the blood; expelling the blood-poisons from the system, enriching and renewing the blood, and restoring its vitalizing power.

During a long period of unparalleled usefulness, AYER'S SARSAPARILLA has proven its perfect adaptation to the cure of all diseases originating in poor blood and weakened vitality. It is a highly concentrated extract of Sarsaparilla and other blood-purifying roots, combined with Iodide of Potassium and Iron, and is the safest, most reliable, and most economical blood-purifier and blood-food that can be used.

Inflammatory Rheumatism Cured.
"AYER'S SARSAPARILLA has cured me of the Inflammatory Rheumatism with which I have suffered for many years."
—W. H. MOORE.
Durham, Ia., March 2, 1882.

"Eight years ago I had an attack of Rheumatism so severe that I could not move from the bed, or dress, without help. I tried several remedies without much if any relief, until I took AYER'S SARSAPARILLA, by the use of two bottles of which I was completely cured. I have not been troubled with the Rheumatism since. Have sold large quantities of your SARSAPARILLA, and it still retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public."
—E. F. HARRIS.
River St., Buckland, Mass., May 13, 1882.

"Last March I was so weak from general debility that I could not walk without help. Following the advice of a friend, I commenced taking AYER'S SARSAPARILLA, and before I had used three bottles I felt as well as I ever did in my life. I have been at work now for two months, and think your SARSAPARILLA the greatest blood medicine in the world."
—JAMES MAYNARD.
620 West 42d St., New York, July 19, 1882.

AYER'S SARSAPARILLA cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blisters, Sores, Bolls, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.

From the Capital

WASHINGTON, D. C., Nov. 17, 1883.
Government receipts to-day. Internal revenue, \$410,735; customs, \$362,107.04.

The Treasury Department has decided that the word "ton," whenever used in the tariff acts, should be construed to be the ton avoirdupois—that is 2,240 pounds.

All the members of the Cabinet were present at the meeting yesterday except Secretary Folger. The session was short, and devoted mainly to the consideration of topics to be embodied in the President's annual message to Congress. A renewal of the proposition to allow the publication of the annual reports of cabinet officers in advance of the President's message was acted on adversely.

Time and tide wait for no one, except the Attorney General. Beyond his jurisdiction, the change in the standard will be practically universal through the country. Next Sunday Nov. 18, at noon the sun will stand still above New England as once before above the battle-swept plain of Ajalon, for a space of from five to twenty minutes. Boston gets sixteen minutes more of Sunday and New York four minutes more. No one will begrudge them the extra sacred allowance, for they both need it. Philadelphia is unmoved, for while the 75th meridian passes a few seconds to the east of Independence Hall it falls within the expansive city limits. Owing to the law's delay, official time in this city must remain for the nonce unchanged; but ere long Old Father Time will be revenged on Capt. Bassett for his trick of putting back the hands of the Senate clock, by a leap of eight minutes in Congress and all the Departments. Out west the change is to be made by all cities and railroads with scarcely an exception. The Central Illinois Railroad objects, and for the moment refuses to comply, but it can scarcely stand out alone. There will no doubt be some friction at first, and it is to be feared, some working; but the change will soon be accepted smoothly to the common advantage.

The majority of Democratic Representatives-elect who are in the city hail from south and west, and are mostly in favor of Mr. Carlisle for Speaker. Mr. Randall has thus far conducted his canvass silently and at long range. His exact strength is therefore the harder to estimate. Judging from the sanguine feeling exhibited by the Carlisle men Mr. Carlisle is largely leading the other candidates and well-nigh certain of election. No tabulated statement of Randall's estimated support has been given out, but in a general way it is claimed that he will get from eighty-five to ninety votes on the first ballot and a nomination on the second. In previous contests for the Speakership, Mr. Randall's estimates of his own strength have proved much more accurate than those of his opponents, and therefore many cool observers of the field are inclined to think the same may prove to be the case this time. Free liquor, which in past times was a conspicuous feature of Speakership fights, is banished from the pending contest, much to the disgust and disappointment of some. At the rooms of Messrs. Cox and Carlisle visitors are received pleasantly and agreeably entertained, but no "treating" is done, and as Mr. Randall has hitherto conducted his canvasses without liquor there is no doubt as to what he will do this time. Mr. Manning, of Mississippi, will not participate in the canvass, nor will he take his seat until the House shall have passed upon his claim. He was given the certificate of election as against Chalmers, but prefers to wait and have his right to his seat determined by the House.

HOWARD.
Iredell county, N. C., The ex-Sheriff, Mr. W. F. Wasson, says: "Brown's Iron Bitters has improved my digestion and general health."

A Washington correspondent of the New York Herald says: "The New Jersey delegation gains the experience of Walter Phelps, a former member, but the familiar form of the rotund Miles Ross, the presence of the rubicund Robeson, of the veteran John Hill and the perpetual A. A. Hardenbergh will no longer be seen among the Jerseys. Except J. Hart Brewer, of Trenton, the entire delegation from New Jersey has been changed."

We take pleasure in recommending Hall's Hair Renewer to our readers. It restores gray hair to its youthful color, prevents baldness, makes the hair soft and glossy does not stain the skin, and is altogether the best known remedy for all hair and scalp diseases.

Godsendly making money when golden chance is offered, thereby always keeping poverty from your door. Those who always take advantage of the good chances for making money that are offered, generally become wealthy, while those who do not improve such chances remain in poverty. We want many men, women, boys and girls to work for us right in their own localities. The business will pay more than ten times ordinary wages. We furnish an expensive outfit and all that you need, free. No one who engages falls to make money very rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address Taux & Co., Portland, Maine.

AYER'S Hair Vigor

restores, with the gloss and freshness of youth, faded or gray hair to a natural, rich brown color, or deep black, as may be desired. By its use light or red hair may be darkened, thin hair thickened, and baldness often, though not always, cured. It checks falling of the hair, and stimulates a weak and sickly growth to vigor. It prevents and cures scurf and dandruff, and heals nearly every disease peculiar to the scalp. As a Ladies' Hair Dressing, the VIGOR is unequalled; it contains neither oil nor dye, renders the hair soft, glossy, and silken in appearance, and imparts a delicate, agreeable, and lasting perfume.

Mr. C. P. BROTHER writes from Kirby, O., July 3, 1882: "Last fall my hair commenced falling out, and in a short time I became nearly bald. I used part of a bottle of AYER'S HAIR VIGOR, which stopped the falling of the hair, and started a new growth. I have now a full head of hair growing vigorously, and am convinced that but for the use of your preparation I should have been entirely bald."

J. W. BOWEN, proprietor of the McArthur (Ohio) Enquirer, says: "AYER'S HAIR VIGOR is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair, and makes it glossy and soft. The VIGOR is also a sure cure for dandruff. Not within my knowledge has the preparation ever failed to give entire satisfaction."

Mr. AUGUS FAIRBANK, leader of the celebrated "Fairbank Family" of Scotch Vocaists, writes from Boston, Mass., Feb. 6, 1880: "Ever since my hair began to give silly evidence of the change which hastening time procureth, I have used AYER'S HAIR VIGOR, and so have been able to maintain an appearance of youthfulness—a matter of considerable consequence to ministers, orators, actors, and in fact every one who lives in the eyes of the public."

Mrs. O. A. PRESCOTT, writing from 18 Elm St., Charleston, Mass., April 14, 1882, says: "Two years ago about two-thirds of my hair came off. It thinned very rapidly, and I was fast growing bald. On using AYER'S HAIR VIGOR the falling stopped and a new growth commenced. In about a month my head was completely covered with short hair. It has continued to grow, and is now as good as before it fell. I regularly used but one bottle of the VIGOR, but now use it occasionally as a dressing."
