DR. JOHN BULL'S Smith's Tonic Syrup FOR THE CURE OF FIEVER and ACUE OF CHILLS and FEVER, AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all the remedies ever offered to the public for the cure of MALARIAL FEVER, and FEVER and ACUE, whether of short or long standing. It is the only medicine that in no case whatever will fail to cure if the directions are strictly followed and carried out. In many cases a single dose has been sufficient to cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in small doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

BULL'S SARSAPARILLA is the old and reliable remedy for impurities of the blood and Scrofulous affections--the King of Blood Purifiers.

THE STORY OF A LIFE.

Fay, what is life? 'Tis to be born: A helpless babe to greet the light With a sharp wail, as if the morn Forthold a cloudy noon and night: To weep, to sleep, and weep again, With sunny smiles between--and then?

And then apace the infant grows To be a laughing, sprightly boy, Happy despite his little woes, Were he but conscious of his joy! To be, in short, from two to ten, A merry, moody child--and then?

And then in coat and trousers clad, To learn to say the decalogue, And break it, an unthinking lad, With mirth and mischief all agog; A truant oft by field and fen, And capture butterflies--and then?

And then, increased in strength and size To be, anon, a youth full grown, A hero in his mother's eyes, A young Apollo in his own.

To imitate the ways of men In fashionable sin--and then? And then, at last, to be a man, To fall in love, to woo and wed, With seething brain to scheme and plan To gather gold or toll for bread; To sue for fame, with tongue and pen, And gain or lose the prize--and then?

And then in gray and wrinkled age, To mourn the speed of life's decline; To praise the scenes our youth beheld, And dwell in memory of long years; To dream awhile with darkened ken; To drop into his grave--and then?

—JOHN G. SACK.

THE TRENTON TIMES FOR 1884.

It would take too long to tell what *The Times* has done for the people and the State in its fourteen months of existence. Suffice it to say that from the start it has attacked abuses of all sorts, political, municipal, national and financial. It has been fearlessly independent and independently fearless. Corruption is its bitterest enemy. Extravagance in State expenditures has been persistently fought. *The Times* secured, for one thing, the passage of a Printing Contract Bill through the Legislature that will save the taxpayers of the State at least \$35,000 a year. It has kept bad men out of office and put good men in.

The Times for 1884 will continue its independent, consistent course. It will watch every bill introduced into the Legislature. It will ventilate every piece of jobbery, whether that jobbery be the work of corporations or individuals. It will fight to the death every attempt to add to the taxation of the people. It will not be suppressed by politician or corporations. Monopolies will be viewed with suspicion. The people and the people's interests will be the special care of *The Times*.

All the news, all the views and all the news of the day will be given in *The Times*. Therefore every citizen of the State of New Jersey will need the *Times*. Those who have been without it cannot afford to be without it in 1884.

The Daily Times is five dollars a year or fifty cents for the session of the Legislature. Send subscriptions always to **THE TIMES, Trenton N. J.**

James Nutt was arraigned in Union town for the murder of Nicholas L. Dukes, his father's slayer, but the entire panel of eighteen men was exhausted without a jury being obtained. The defense will be based upon insanity with an uncontrollable desire to kill.

In his annual report to the President, Secretary of the Treasury Folger reviews the country's revenues and the estimates for 1885; recommends that trade dollars be received by the Government at their nominal value in exchange for standard dollars at their nominal value and be then received; recommends that the internal revenue tax on national banks be taken off in whole or in part, and says on the surplus distribution idea that the payable debt of the Union can take all surplus likely to arise for years to come.

Rev. Father Wilds'
EXPERIENCE.

The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

"78 E. 54th St., New York, May 10, 1892.
 Messrs. J. C. Ayer & Co., Gentlemen:
 Last winter I was troubled with a most unendurable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also suffering from severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of Ayer's Sarsaparilla, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the Sarsaparilla, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two boxes. These facts at your service, hoping their publication may do good.
 Yours respectfully,
 Z. P. Wilds."

The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of AYER'S SARSAPARILLA to the cure of all diseases arising from impure or impoverished blood, and a weakened vitality.

Ayer's Sarsaparilla
 cleanses, enriches, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all Scrupulous Diseases, Eruptions of the Skin, Rheumatism, Catarrh, General Debility, and all disorders resulting from poor or corrupted blood and a low state of the system.

An Instance of Criminal Inheritance.

A remarkable case of criminal inheritance was traced back during the year 1874, by the New York Prison Association, showing the overwhelming importance to the community of caring for even two or three vagrant children.

About one hundred years ago there lived on the border of two or three forest-lakes in Ulster County, New York, a little vagrant girl called Margaret, and four sisters, some of whom were of illegitimate birth. They seem to have been in no respect different from hundreds of little girls in and around this city who yearly come under the care of this Society. Their parents were poor, roving people, who made their living partly by hunting and fishing, and partly by stealing. They lived like our poor city children, crowded in shanties, where old and young, male and female slept in the same rooms. Like our street children, they never went to school or attended church. They grew up almost untouched by the morality and religion of the day. In winter they were aided by the out-door relief of the authorities or by kind-hearted persons, and in summer they lived on game and on their plunder from farms and barn-yards. Probably, as most people passed little Margaret, the future "mother of criminals," they looked on her as people do now on the little ragged street-sweepers they meet on our streets—either with utter indifference or with hopelessness, as on an irreclaimable vagabond, or with disgust, as one with whom the decent and virtuous should have nothing to do. The little Margaret grew up thus to a wicked womanhood.

In a recent visit to the Kingston jail the able official of the Association, Mr. Dugdale, came upon no less than five criminals of the same family awaiting trial.

He traced back the genealogy of these criminals, and discovered that the ancestor of them all was the little vagrant girl of whom we have spoken, or her sisters. This stimulated his efforts, and after immense labor he finally brought to light the following facts concerning this unfortunate family:

Seven hundred and nine descendants of Margaret and her unfortunate sisters were accurately tabulated, whose names were mainly taken from public records.

Of these the greater part were of vicious character, many of them criminals. Only twenty-two ever acquired property, and eight of these lost what they had gained. One hundred and forty received out-door relief during an aggregate number of 734 years; sixty-four were in the almshouse of the county, and spent there an aggregate number of ninety-six years; seventy-six were publicly reformed as criminals having committed 115 offenses and been 116 years in jails and prisons. Great numbers of the offenses of this wretched family were never entered in any court records, and hundreds were never brought to trial.

Fifty per cent of the direct female descendants of Margaret were of disreputable character, and murder or attempt to murder appear among males of every generation except the sixth, in which the children are under seven years. Forgery is found but once upon their record. Theft appears everywhere.

Mr. Dugdale has traced still further the line and makes it probable that the aggregate of the descendants of these vagrant children reaches the large amount of 1,200 persons, living and dead.

The cost of their almshouse relief he estimates at \$15,000, and their out-door relief at \$32,250, to Ulster County; the maintenance of the prisoners of the family at \$100 per annum, as \$14,000; the cost of arrest and trial, at \$100 for each case, as \$25,000; the amount of property stolen and destroyed by them, as \$15,000, and so on in various items, until he reached the sum of \$1,023,000, as the cost to Ulster County and the State of New York for neglecting one vagrant child and her miserable little sisters.—From *Dangerous Classes of New York.*

Tone up the system by the use of Ayer's Sarsaparilla. It will make you feel like a new person. Thousands have found health and relief from suffering by the use of this great blood purifier when all other means failed.

The beleaguered turkey is enjoying a breathing spell between Thanksgiving and Christmas.

There will be twenty-four "Nationalists" in the coming Congress.

Jacksonville, Florida, is getting about 500 visitors every day from the North, one-half of this number coming from New York.

Miss Winnie Hall of Temple, Tex., admits that she is the oldest old maid in America, if not in the wide world. She was 100 years old last Sunday.

Hon. Samuel F. Jones, the most prominent criminal lawyer in Hartford, Conn., has announced that hereafter he will not defend men accused of violating the liquor law.

"I'm related to royalty," said the last victim of the Delaware whipping-post as he pointed to the marks on his back. "Don't you recognize the prints of wales?"

Saltmarsh, Ala., Dr. Jas. B. Mills, says: "Several of my patients have used for chronic indigestion with benefit, Brown's Iron Bitters."

Wanting to have a quiet time the other day the editor hung the office towel outside the front door and the usual run of callers thought some one was dead and passed by on tiptoe.

AYER'S
Hair Vigor

restores, with the gloss and freshness of youth, faded or gray hair to a natural, rich brown color, or deep black, as may be desired. By its use light or red hair may be darkened, thin hair thickened, and baldness cured, though not always, cured. It checks falling of the hair, and stimulates a weak and sickly growth to vigor. It prevents and cures scurf and dandruff, and heals nearly every disease peculiar to the scalp. As a Ladies' Hair Dressing, the Vigor is unequalled; it contains neither oil nor dye, renders the hair soft, glossy, and silken in appearance, and imparts a delicate, agreeable, and lasting perfume.

Mr. C. P. BRICKER writes from Kirby, O., July 3, 1892: "Last fall my hair commenced falling out, and in about a month I became nearly bald. I used part of a bottle of AYER'S HAIR VIGOR, which stopped the falling of the hair, and started a new growth. I have now a full head of hair growing vigorously, and am convinced that the Vigor is the best of your preparation I should have been entirely well."

J. W. BOWEN, proprietor of the McArthur (Ohio) Enginer, says: "AYER'S HAIR VIGOR is a most excellent preparation for the hair. I speak of it from my own experience. — It stops the falling of the hair, and starts a new growth, and makes it glossy and healthy. The Vigor is also a sure cure for dandruff. Not within my knowledge has the preparation ever failed to give entire satisfaction."

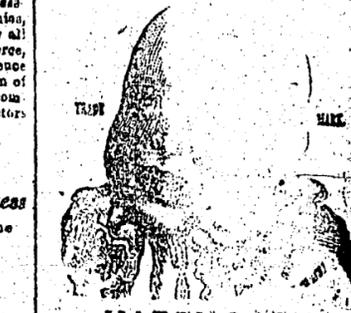

Mr. AUGUS FAIRBAIN, leader of the celebrated "Fairbairn Family" of Scottish Vocalists, writes from Boston, Mass., Feb. 6, 1890: "Ever since my hair began to give every evidence of the change which I became nearly bald, I have used AYER'S HAIR VIGOR, and so have been able to maintain an appearance of youthfulness—a matter of considerable consequence to ministers, orators, actors, and in fact, every one who lives in the eyes of the public."

Mr. O. A. PRESTON, writing from 22 Elm St., Charleston, S. C., April 14, 1892, says: "Two years ago about two-thirds of my hair came off. It thinned very rapidly, and I was fast growing bald. On using AYER'S HAIR VIGOR the falling stopped and a new growth was complete in about a month. My hair has continued to grow, and is now as good as before it fell. I regularly used but one bottle of the Vigor, but now use it occasionally as a dressing."

We have hundreds of similar testimonials to the efficacy of AYER'S HAIR VIGOR. It needs but a trial to convince the most skeptical of its value.
